A detailed illustration of a Great White Shark swimming in a colorful coral reef. The shark is the central focus, shown in profile with its mouth slightly open, revealing its teeth. The reef is teeming with various types of coral in shades of orange, pink, and yellow, along with numerous small, colorful fish. The water is a deep, clear blue.

The greatest shark of all time ?

Great White Shark

A large Megalodon shark is the central focus, swimming towards the viewer with its mouth wide open, revealing sharp teeth. It is surrounded by other sharks and smaller fish in a deep, blue ocean environment. Sunlight rays penetrate the water from above, creating a dramatic atmosphere. The background shows a rocky seabed with some coral-like structures.

The greatest shark of all time ?

MEGALODON !!!

- “Giant tooth”
- 7 inch long teeth
- 20,000 teeth in lifetime

Could swallow  
almost 2  
school buses.

It was 3 times  
bigger than  
sharks today.

Hunted fish,  
baleen whales,  
toothed  
whales,  
sirenians &  
seals

Strong bite  
force of 12-20  
tons

Apex Predator

King - kept the  
oceans in balance

Went extinct around  
3 million years ago

Why?

- Oceans got colder
- Food became harder
- Competition

Adapt to the  
changes!

Thank you!
